I've been to AA meetings and NA meetings there. The staff is very helpful. They have a clothing closet as well and do not discriminate. The environment is very inviting

I'm not from Idaho so when I got out a year and a half ago I was worried because I have no family or friends here. But the I heard about peer wellness and they have been amazing. They helped me get so much done and still find the time to fit me in their busy schedule to continue to help me whether it be with taking to court or getting other errands done. They sincerely care and want to help people in my situation and now I can say I've made two amazing friends. If you know anyone that just got out of you just got out peer wellness is the place you want to get help at. Thank you peer wellness.

I got out of prison with no clothing, no family and no support or so I thought. I was blessed to be picked up by Veronika and every thing that could go wrong did go wrong but from sheer will power she changed every negative to a positive. My sober living house fell through she got me relocated to a house and my funding got trans to pay for it. I had a hold on food stamps due to a sanction but because I was associated with PURE Wellness they were able to clear my sanction. The SafeLink government phone place Internet was out so we went through another carrier and used the gov assistance through them. Every obstacle overcome with a better resolution if that's not providence then what is? Laura has been and is instrumental in my success as well with her no nonsense get it done attitude I can't say enough good things about her. Pure Wellness is about helping people start over on the right foot and letting you know your not alone and there is a different way than what we know.
